Pretoria : South Africa

The Ozone Steam Sauna is a hot steam pod into which ozone is introduced, which then enters the body through the pores in the skin. The method is called **Transdermal Ozone Therapy**, also known as **hyperthermic ozone and transcutaneous ozone therapy**. It is also the main Oxygen therapy method used at the Finchley Clinic in London. (Other methods are also used when necessary, such as ear, vaginal and rectal insufflation).

As the skin pores open as a result of being surrounded by the warm steam, ozone enters the body transdermally (i.e. via the skin). The ozone then penetrates the blood, lymph and fat. By allowing ozone in and toxins out via the sweating process that is induced, **transdermal ozone therapy is one of the most powerful methods of detoxifying and oxygenating the body in existence**. The method is not new: Dr. Kellogg first used ozone in steam saunas at his naturopathic clinic in Battle Creek, Michigan as far back as 1881. The German army used transdermal ozone, without the use of steam baths, for wound healing on the battlefields of World War I.

As an aside steam cabinets, steam rooms and saunas do have valuable detoxifying effects on their own. During a fever, the functioning of the immune system is stimulated, while the growth of bacteria and virus is forced to slow down.

In a 1959 review of studies on the effects of heat treatments, Mayo Clinic researcher Dr. Wakim and colleagues cite findings indicating that the number of white blood cells in the blood increased by an average of 58% during artificially induced fever.

The generation of antibodies speeds up, as does the production of interferon, an anti viral protein that also has powerful cancer-fighting properties. However with the addition of ozone the effects are vastly more powerful. People sometimes ask how transdermal ozone compares with Turkish steam baths, but the truth is that there is no comparison.

Transdermal ozone also has a very **relaxing effect**. This is partly because heat has a naturally relaxing effect and partly because ozone oxidises (i.e. breaks down) excess adrenaline in the body, producing overall calm.

This method is also useful for skin complaints and improving the tone of the skin generally. We find that eczema and psoriasis sufferers benefit enormously from this therapy. This is backed up by extensive research summarised in the books "The Use of Ozone in Medicine" 3rd English Edition and "Oxygen Healing Therapies".

Transdermal ozone therapy also **assists in weight loss**. During a 20-40 minute session in the steam cabinet the body burns up to 400-500 calories. More importantly as toxins are stored in

the body's fat reserves, when the body is de-toxified as a combined result of the sweating inside the steam cabinet and the de-toxification that takes place as a result of the ozone, the body no longer requires extraneous fat and so you are more likely to stay slim.

[Click here for an extensive list of conditions successfully treated with transdermal ozone](#)

Simply the best ozone steam sauna currently on the market

The Steam Sauna arrives at your door fully assembled and ready to use in any room of your home, office, or business. It requires no plumbing hook up, no water line, no drains, and no special electrical supply. Just add water, plug the power cord into your standard wall socket, and enjoy your own personal private steam sauna!

Longest Warranty in the industry: 2 years on the electronics and 5 years on the body of the Pod. The EXT50 Ozone Generator offers you a unique set of features:

- **Lifetime Warranty against burn out** - the EXT50 Ozone Generator produces no heat, no sparking therefore "burn out" is impossible.
- **No Metal** - our cold corona double-walled quartz glass tube ensures oxygen and ozone only come into contact with glass (which is 100% ozone resistant)
- **Pure ozone output** - since the ozone only comes into contact with 100% ozone resistant materials, the ozone that the EXT50 Ozone Generator produces is pure, completely free of metals and completely free of nitrogen byproducts.
- **Extremely Easy to Use** - our ozone generators come with complete owner's manuals, with diagrams and photos to ensure easy operation of your new ozone generator. If you need help, just call us!
- **Precision Ozone Output** - the EXT50 is designed to provide ultra pure ozone for many different ozone protocols with ozone concentrations ranging from 1ug/ml - 51ug/ml
- **Proven High Quality and Professional Manufacturing** - Our Ozone Generators and our factory have been inspected by representatives of Canadian and American authorities and have proven professional manufacturing, quality controls, and safety resulting in our ETL Approval
- **100% Ozone resistant internal components:** glass electrode, Teflon tubing, **no metals:** you get only pure contaminant free ozone

Our Range of Ozone Steam Sauna's

Ozone Steam Sauna Features

Steam and heat production and distribution contribute dramatically to your comfort in your Ozone Steam Sauna. What else will add to your comfort?

Digital Remote Control

Outstanding convenience and ultimate in temperature control. Use the hand held digital control pad to choose the time you would like to be in the Ozone Steam Sauna and preset your desired temperature. Hang the remote control on the wall or set it on a table or counter top to easily view the time remaining in the session and the actual internal temperature of the sauna on the display screen. Temperature is displayed and controlled

	to within 1 degree of the set temperature! The most advanced, convenient and precise steam system available!
10 Seat Positions! Comfort, Comfort	10 seat possible seat positions ensures a perfect fit, ergonomically molded extra strong fiberglass seat, reinforced seat rail system holds up to 180 kilograms, and ergonomic form fitting neck opening ensure your comfort.
4 Steam Vents	Perfection! 4 independent steam jets (two back, two at floor level) ensure even heating throughout the Ozone Steam Sauna.
"Safe Steam" Steam Jets	Your safety and comfort is our priority. Lower level steam jets at your feet are covered with our new "Safe Steam" steam diverters so your feet are not exposed to hot steam, and to further enhance our outstanding steam and heat distribution through the sauna.
Self Cooling Electronics	Your sauna may heat to 54 degrees C (130 degrees F), but your electronics shouldn't! We use only the highest quality electronics available, then we ensure that they remain at room temperature to ensure Longevity! Our self cooling electronics will ensure problem-free operation of the Ozone Steam Sauna.
New Sealed Stainless Steel Steamer	Our Vortex II Stainless Steel Steamer design ensures all electronics completely sealed from water, steam, and ozone by high quality stainless steel. Ozone proof, steam proof, water proof! Built for commercial use so both Home Users and Business Users are provided a top quality product.
ETL Approved	After being rigorously inspected for safety and quality by US and Canadian Authorities, the Ozone Steam Sauna has been granted ETL Approval. This is your proof of high quality, safety, and professional manufacturing.
State of the Art Construction	Closed Cavity Vacuum Bag Molding is the most technologically advanced method of fiberglass construction and far superior to our previous method of Hand Laid Fiberglass. This technique uses 21st Century Technology to ensure an even higher density fiberglass for even more strength, durability, and quality!
Ozone Ready	To ensure you can use your steam sauna with ozone, every Steam Sauna is made from ozone resistant components, an ozone / oxygen port is installed in the wall, and the steam generator is completely sealed from the effects of ozone.
Water Level Sensor AND Sight Glass	(i) see the current water level on the sight glass (ii) low water level warning light will illuminate if the steamer needs to be refilled (iii) Water Level Sensor will automatically shut off the steam generator just before it runs out of water for added safety.
"Easy Fill" Water Port	Fill the Ozone Steam Sauna without removing the seat, and without unscrewing any covers. Just pour in the water!
No Plumbing or Drains	Place the Ozone Steam Sauna in any room of your home, office, or clinic. If you move, take it with you!
Easy Maintenance	Easy to drain water from the steamer if prolonged storage is necessary or if you move; Top of steam generator easily removed if cleaning is necessary; all electronics easily accessed from the front panel; element easy to change if necessary.
Double Doors	For easy entry and exit, front lip of the sauna is only 3.81 centimeters off the floor.
No Leaking	silicone "T" seal down between the doors, and "No Drip Lip" on the front of the Ozone Steam Sauna ensures that water and steam do not leak when the doors are closed.
Quadruple Safety System	Your safety is our priority (i) Low water shut off, (ii) timer shut off (iii) high temperature limit shut off (iv) fuse protection.

Our highly advanced construction techniques and the above features are unique to the Ozone Life Technologies' sourced Ozone Steam Sauna. The high quality, safety, convenience, comfort, steam and heat distribution, and digital time and temperature display guarantee you will love your new Ozone Steam Sauna!
