Cnr Hans Strydom & Jacqueline Drive
Pretoria : South Africa

The Ozone Steam Sauna was recently voted as the number 1 Health solution to have in your home by the recognized TV program (Balance TV for Living Well) in the USA.

Ozone Sauna Therapy is a common way to describe the combination of ozone and steam therapy. Ozone, or "**activated oxygen**", is introduced into a special steam sauna cabinet, where it then is absorbed trans-dermally (via the skin) of the user.

The result is a health effect on the user that combines the beneficial oxygenation and detoxification effects of both ozone and steam therapy, thereby restoring the body's natural balance to heal itself.

The Ozone Steam Sauna improves the quality of your life, including:-

Cellulite	Skin conditions
Acne	Weight loss
Detox	Muscle recovery
Pain and inflammation	Anti-aging
Infections	Candida
Improved brain function	Memory retention, etc.

Weight loss / Cellulite.

Burns 400-600 calories per half hour session, proven through international research.

Most powerful detoxifying modality in the world.

Only 1 session of 30 minutes twice per week can restore your body and health to the quality of life you deserve.

Soon available at your local:-

Gym
Health spa
Wellness centre
Medical clinic
Beauty salon
Rehabilitation clinic
